ANTIGONE

Writer-director Sophie Derazée’s incisive liberal adaptation of the Greek tragedy by Sophocles is the daring story of one young woman’s passionate commitment to make the world a better place, even if it means sacrificing herself. An Algerian-borne teenager growing up in Montreal, Antigone’s (a stunning, luminous performance by Nahéma Ricci) world is shaken when her oldest brother is killed by police and her other brother arrested; if convicted, he will face deportation. Antigone soon invents a fearless, dangerous plan to free him: but can it succeed? As Antigone’s predicament intensifies, a State of the Society Address: 30 minutes prior to screenings. Discussion: follows screenings.

TWO OF US

Two retired women, Nina and Madeleine, have been secretly in love for decades. Everybody, including Madeleine’s family, thinks they are simply neighbors, sharing the top floor of their building. They come and go between their two apartments, enjoying the affection and pleasures of daily life together, until an unforeseen event turns their relationship upside down and leads Madeleine’s daughter to gradually unravel the truth about them.

GREAT BEAR RAINFOREST

Journey to a land of grizzlies, coastal wolves, sea otters and the all-white spirit bear — the rarest bear on earth — in the film Great Bear Rainforest. Hidden from the outside world, the Great Bear Rainforest is one of the wildest places left on earth. Found on Canada’s remote Pacific coast, it is the last intact temperate rainforest in the world—a place protected by the region’s indigenous people for millennia. Now, for the first time ever, experience this magical world in IMAX and giant screen theatres, and discover the land of the spirit bear.
